DETAILED ACTION

1. Claims 24-31 are pending.
2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 01/15/2008 has been entered.

Claim Objections

3. The objection under 37 CFR 1.75(c) has been withdrawn based on the filed amendment.

Allowable Subject Matter

4. Claims 24-31 are allowed.
5. The following is an examiner's statement of reasons for allowance: The prior art teaches methods of accelerating RC4 key generation using a four-stage pipeline. However the prior art fails to teach that the four stages are performed during a single clock cycle which generates a byte of key data in each subsequent clock cycle.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Koshy teaches the claimed methods but does not qualify as prior art. Duval and Burke et al. teach methods of accelerating RC4 encryption and decryption, but does not teach the key generation steps.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MICHAEL PYZOCHA whose telephone number is (571)272-3875. The examiner can normally be reached on 7:00am - 4:30pm first Fridays of the bi-week off.
